## Projects 2019-20

Board Member  
Linda Kobert

A project at **Acceleration East** to have their main building re-roofed and rooftop heating, ventilation and air conditioning units replaced will start later this summer and will be completed in 2020.

A capital renewal project recently concluded at **Blankner School** that replaced roofing and heating, ventilation and air conditioning campus-wide. Exterior lighting was also replaced and the security camera system was replaced and expanded. The gymnasium received new gutters and downspouts, exterior repairs and painting. In addition, the track resurfacing is estimated to be completed in December.

At **Boone High**, a new Performing Arts Center has been completed for the 2019-20 school year. The school track was rubberized in November 2018. The guard booth was completed in December 2018. A replacement of the gym and renovation and expansion of the cafeteria will be complete for 2020-21. The campus is also in the final stages of a capital renewal project that includes roof and fire alarm system replacement and rekeying campus-wide, and renovations in buildings 100, 200 and 300 including repainting, renovation of group bathrooms, plumbing improvements, renovation of the heating, ventilation and air conditioning system and new acoustical ceilings and LED lighting. Major drainage improvements are in store this fall for the softball field dugouts, bathroom and locker room. Interior repainting of the remaining buildings on campus are scheduled for completion in 2020. A Curb Appeal project is also scheduled for the 2019-20 school year.

A Curb Appeal project is scheduled for the current campus of **Cherokee School** during the 2019-20 school year.

A Curb Appeal project is scheduled for **Conway Middle** during the 2019-20 school year.

At **Cypress Creek High**, both the track rubberization and auditorium renovations are in progress.

A Curb Appeal project was completed at **Endeavor Elementary** in December.

At the **Food and Nutrition Administration Building**, the cafeteria food service area will be remodeled in 2020.

Heating, ventilation and air conditioning improvements are set to begin in late 2019 at **Freedom High** for completion in 2020. In addition, the cafeteria sound system as well as the HVAC in building 900 both have plans to be completed in August. A new washer and dryer was installed in May. The softball scoreboard was completed in September 2018. The boiler was replaced in June 2018.

At **Freedom Middle**, a cafeteria sound system and stage lighting upgrade was completed in August 2019.

At **Hillcrest Elementary**, A tot lot shade structure was completed in August.

At **John Young Elementary**, A tot lot sunshade was completed in April. A Curb Appeal project is scheduled for the 2019-20 school year.

A comprehensive renovation has been completed at **Lake George Elementary** for the 2019-20 school year. The project includes classroom technology upgrades, new finishes, heating, ventilation and air conditioning upgrades and new plumbing fixtures.

A Curb Appeal project was completed at **McCoy Elementary** in December.

**Meadow Woods Middle** is in design for a comprehensive renovation that includes remodeling/refurbishment of buildings 1 through 8, including classrooms, administration, art, music, cafeteria/multi-purpose room, media center, gymnasium and associated interior and site work.

## School Construction and Maintenance

Projects 2019-20

---

**Oakshire Elementary** is in the midst of a capital renewal project that includes a new heating, ventilation and air conditioning system, electrical and plumbing improvements, new outside drinking fountains, new canopy and courtyard lighting, new gutters and downspouts as well as new fire alarm, intercom and intrusion detection systems. The project is expected to be complete for the 2020 school year.

The new **Pershing School** opened for the 2019-20 school year. The K-8 includes classrooms, an administration area, cafeteria, gymnasium and media center. The school has the latest classroom technology, updated play areas, athletic fields and new bus and car loops. It combines the student bodies of Pershing and Pine Castle elementaries and adds middle school students for the first time.

At **Sally Ride Elementary**, the tot lot sunshade has been completed.

At **Shenandoah Elementary**, a tot lot shade structure was completed over the summer.

A new school in the southeast Orlando/Lee Vista area will open for the 2020-21 school year. The not-yet-named Site **83-E-SE-3** will include classrooms, administration, a cafeteria and media center. The school will also have the latest classroom technology, updated play areas and new bus and car loops.

At **Southcreek Middle**, the parking lot wheel stops are to be completed in December 2019.

**Southwood Elementary** received new gutters and downspouts, air conditioning and plumbing improvements, and new outside drinking fountains in a project that concluded this summer.

**Winegard Elementary** is under construction for a renovation/replacement project that will open for the 2020-21 school year. The project includes the renovation of Building 3 and the construction of a new main building that houses classrooms, administration, a cafeteria and media center. The school will also have the latest classroom technology, updated play areas and new bus and car loops. In addition, the canopy was repaired in April.
