

How OCPS Plans Schools

Facilities Services and Student
Enrollment

August 29, 2018

**Orange County
Public Schools**

Agenda

- **How Does OCPS Plan Schools?**
- **How Does OCPS Decide Which Schools Are Built First?**
- **How Does OCPS Decide Where to Locate Schools?**
- **What Approvals Does OCPS Need to Build Schools?**
- **How Are New Schools Funded?**
- **What is the Process for Building a New School?**

Our Team

- **Laura Kelly, Facilities Legal**
- **Jessma Lambert, Director of Facilities Construction Planning and Chair of Advance Planning Committee**
- **Carol McGowin, Director of Student Enrollment**
- **Thomas Moore, Senior Administrator/Demographer**
- **Lauren Roth, Senior Manager of Facilities Communications**
- **Julie Salvo, A.I.C.P., Senior Administrator of Facilities Planning**

How Does OCPS Plan Schools?

In a Perfect World

- School Opens when Existing Schools Reach Capacity
- Available Real Estate with Adequate Size and Configuration
- Located on Roadways and Utilities with Sufficient Capacity
- Federal, State and Local Approvals in Place for a School Site
- No Environmental Concerns or Constraints
- Walkable or Drivable Neighborhood School
- No Neighborhood Opposition
- Funding Readily Available

Our Reality

- Limited Funding Requires Relief Be Prioritized
- Limited Available Real Estate of Sufficient Size
- Irregular Configuration of Site
- Unwilling Sellers
- Insufficient Capacity for Roadways and Utilities
- Federal, State and Local Approvals Necessary for Use as a School Site
- Endangered Species, Sinkholes, and Contamination
- Neighborhood Opposition

Planning New Schools

OPEN
SCHOOL

Advance Planning

- Purpose – to gather representatives from key stakeholder departments of OCPS to research, review and analyze data to assess future student capacity and facility needs.
- Goal – to analyze pertinent data and recommend the 10 year Capital Improvement Plan (CIP).

Members

Facilities Director, Construction Planning
Staff Attorney III, Facilities Legal
Director, Student Enrollment
Director, Real Estate Management
Director, Office of Management and Budget
Director, Academic and Guidance Services
Director, ESE Specialized Services
Director, Curriculum, Instructional and Digital Services
Senior Administrator, Student Enrollment

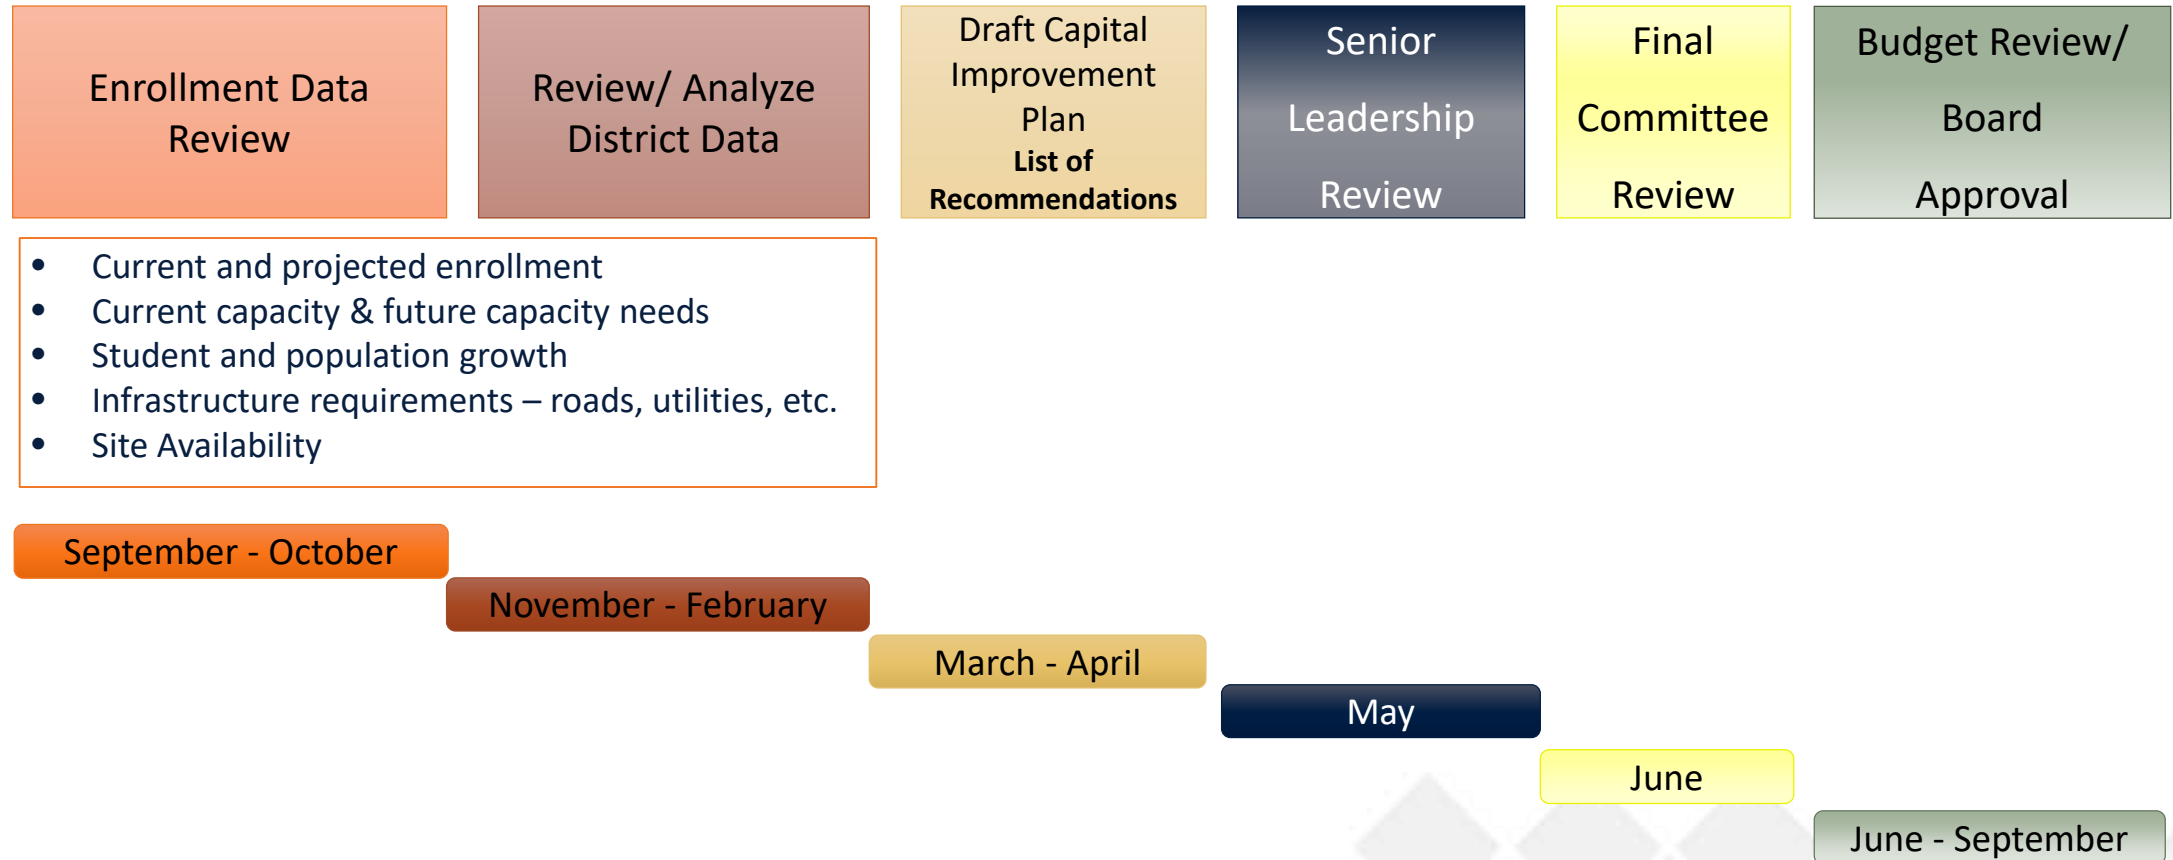

Attending Departments

Facilities Construction Planning
Student Enrollment
Facilities Planning
Real Estate Management
District General Counsel
Teaching and Learning
Facilities Program Management Team
Orange County Government and other Municipalities (as needed)
Other departments (as needed)

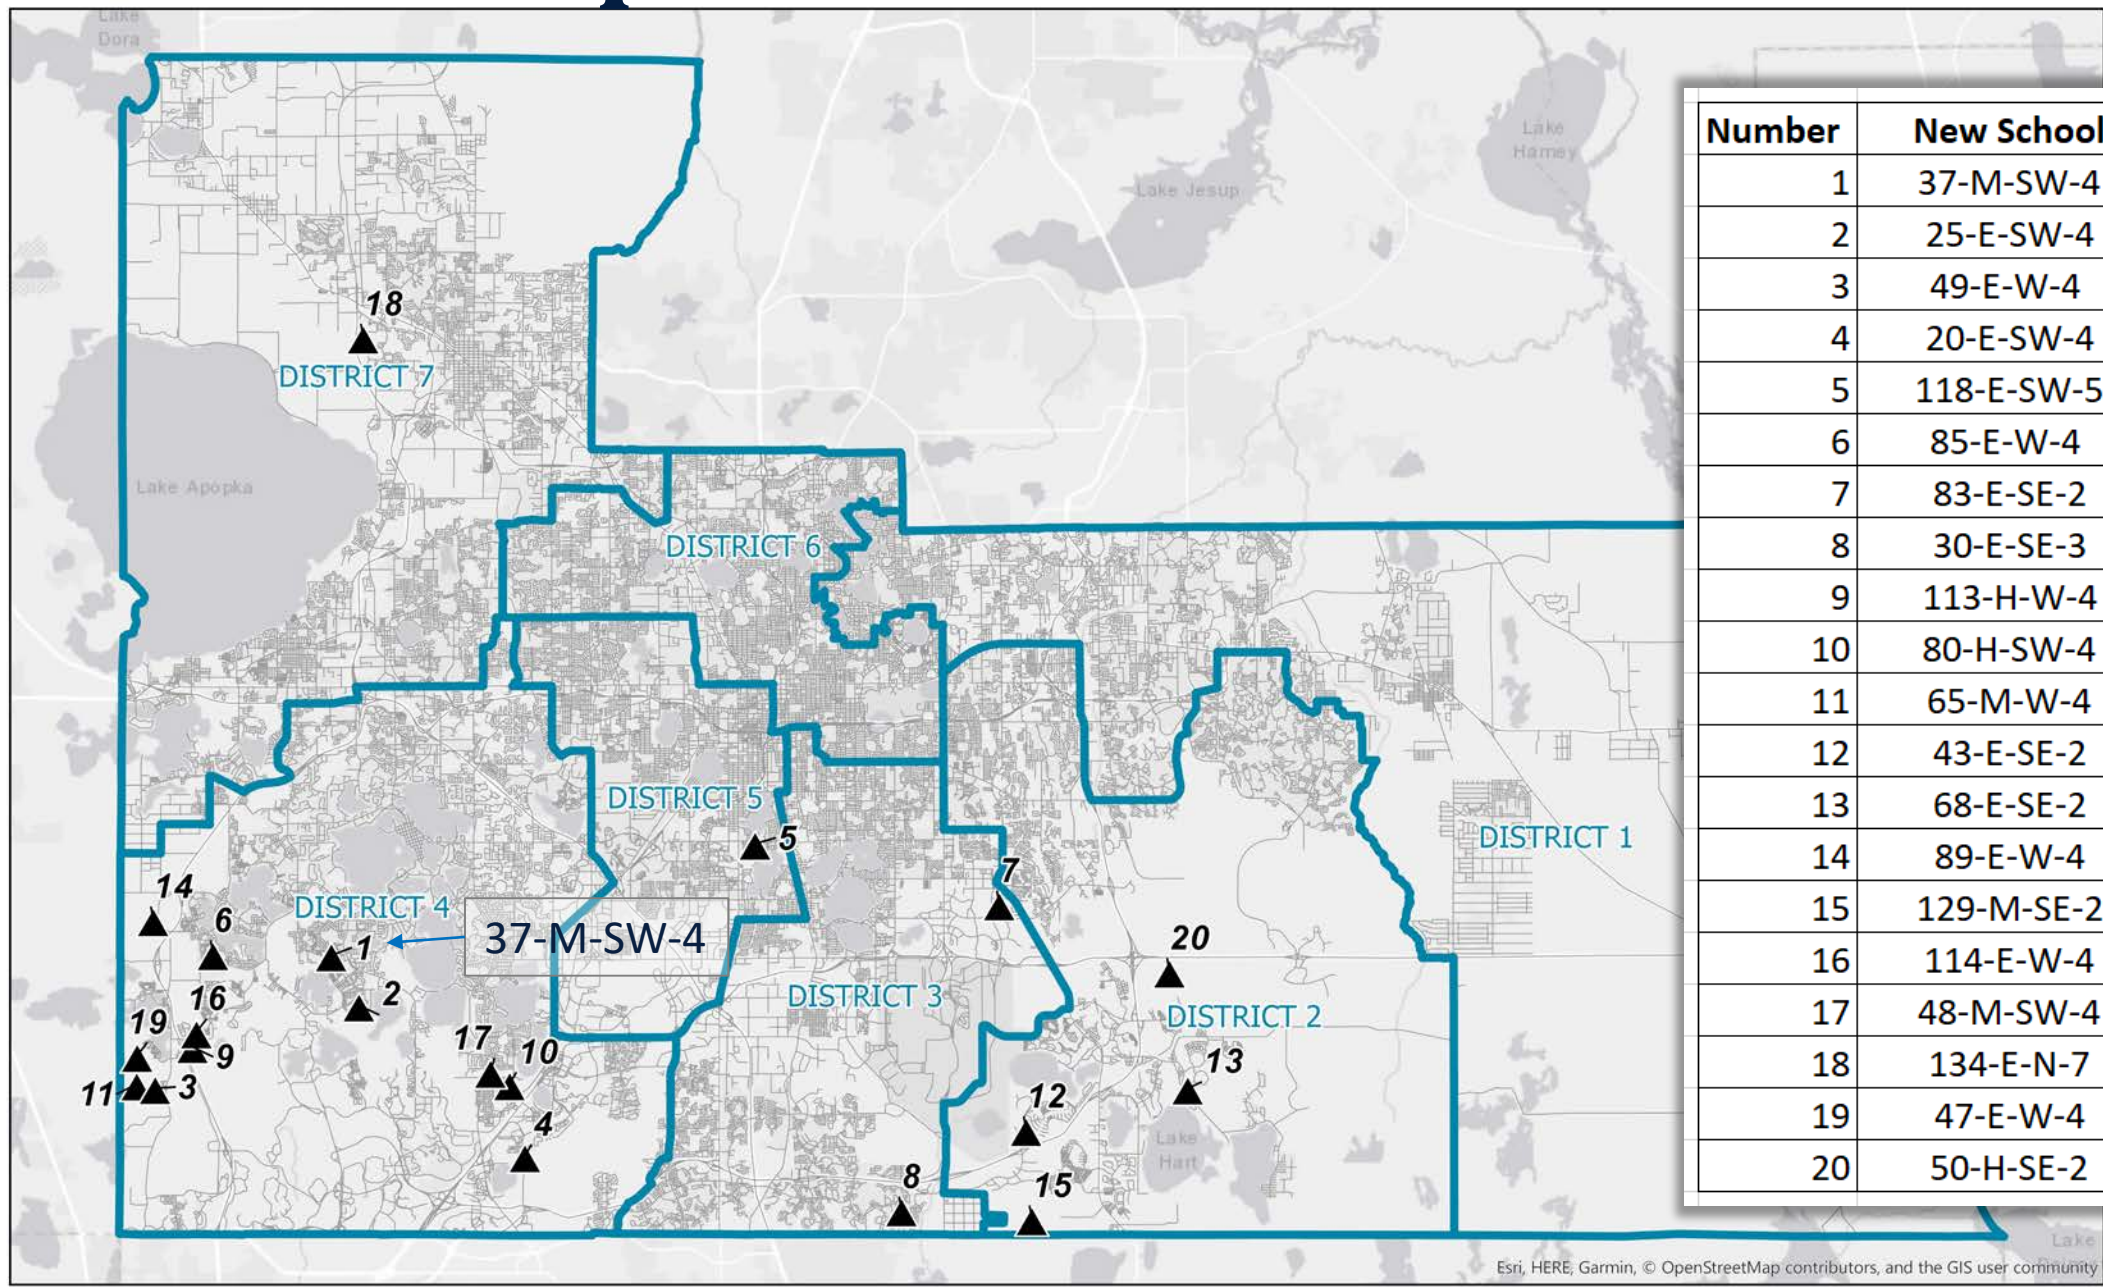

CIP Development Process

- Analyze Growth and Development Data
 - Demographics (Birth Data/Residential Construction)
- Assess Capacity (Existing and New)
- Define Projects
- Prioritize Projects
- Allocate Funding and Resources

CIP Development Schedule

Proposed 2018-19 10-Year CIP

Sunrise Elementary School

How Does OCPS Decide Where to Locate Schools?

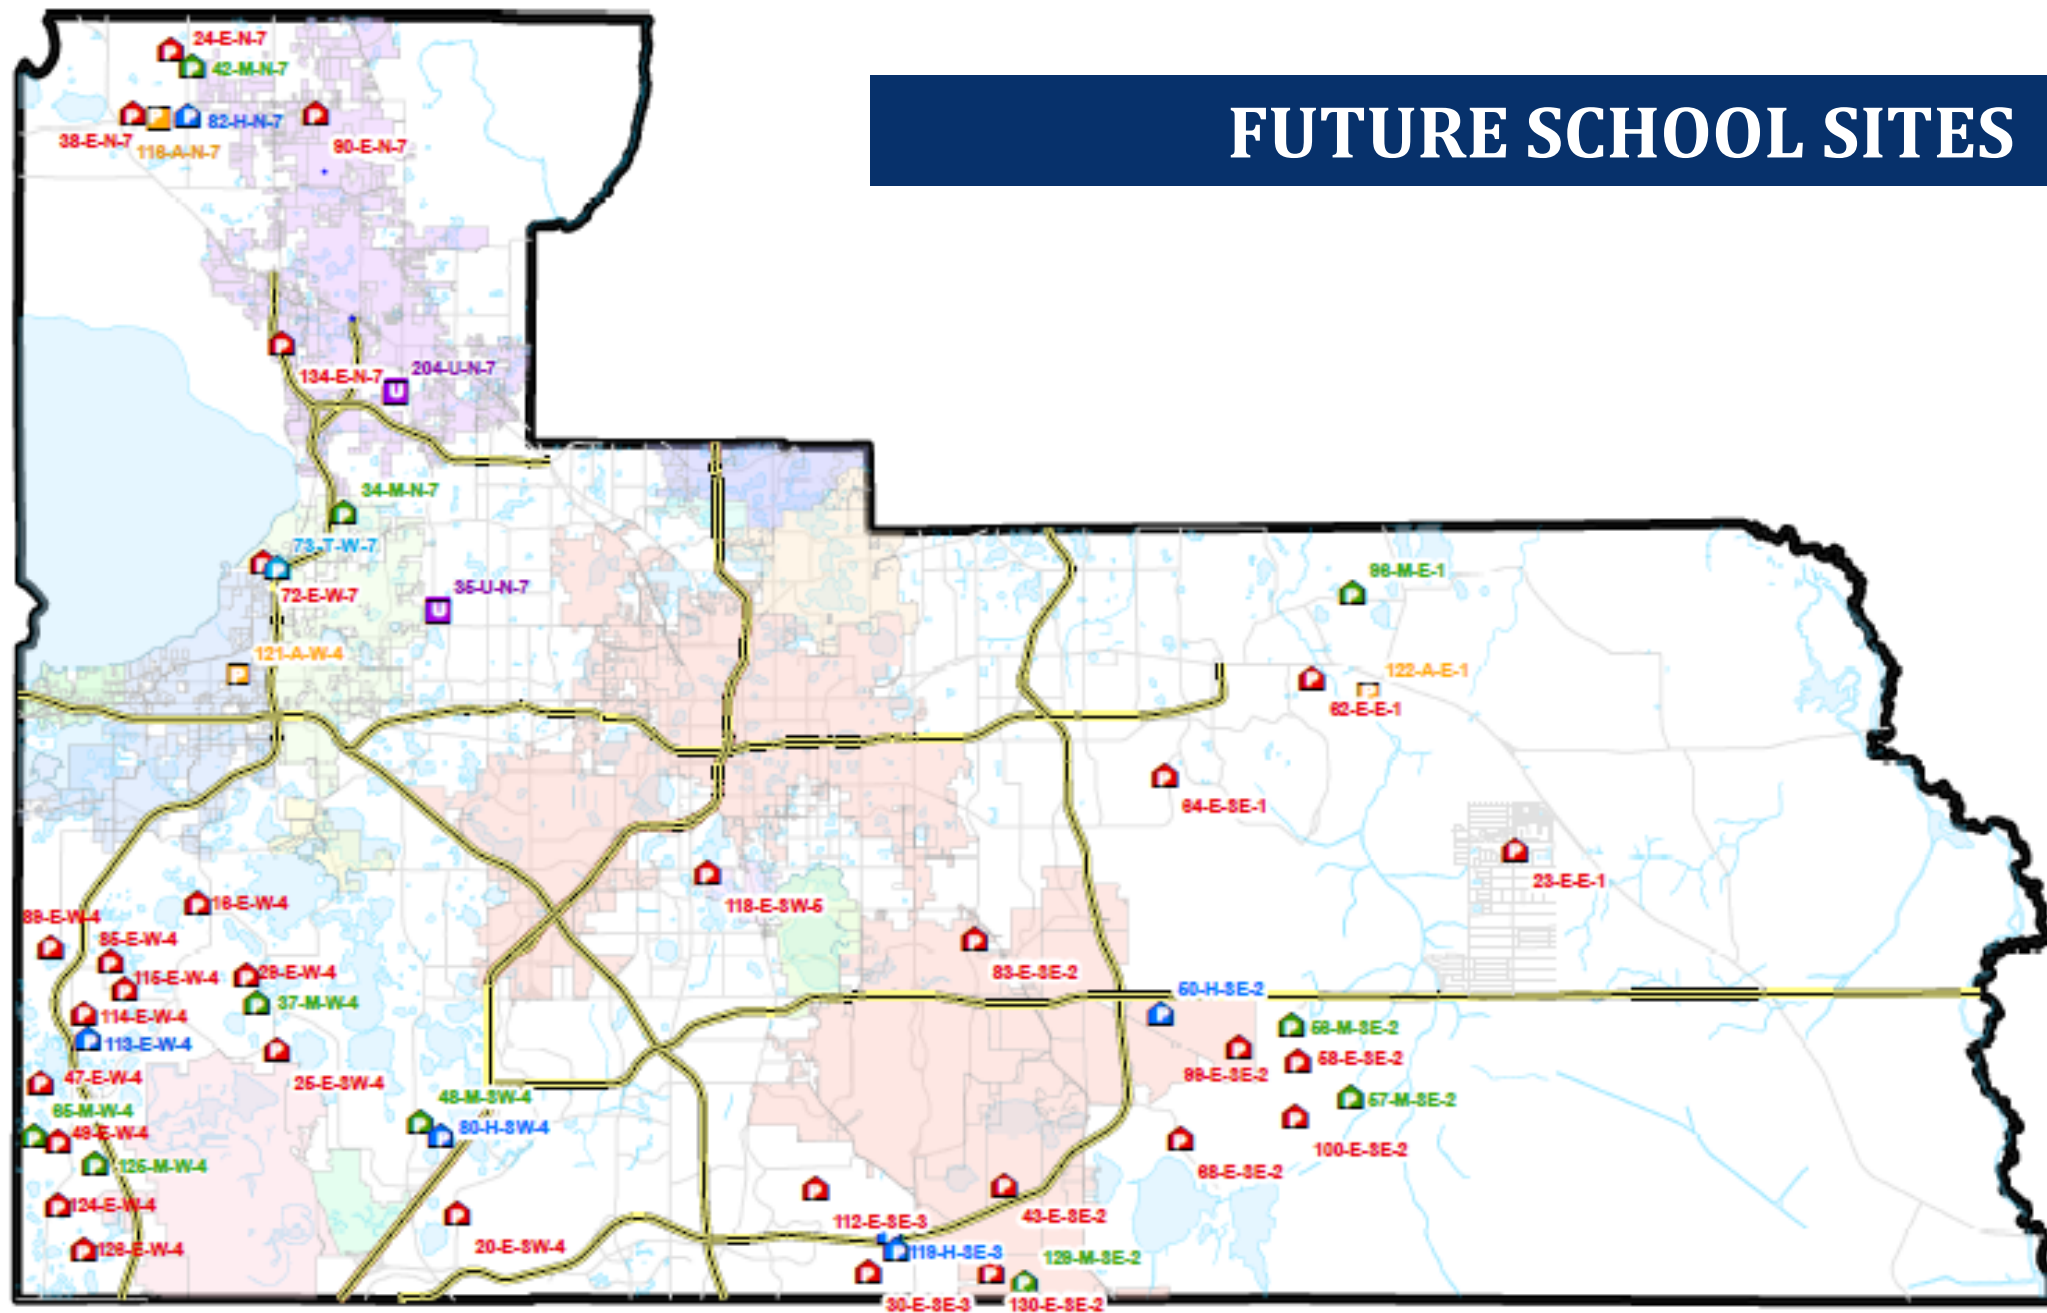

Proposed 2018-19 10-Year CIP

Number	New School	Opening
1	37-M-SW-4	2019
2	25-E-SW-4	2019
3	49-E-W-4	2019
4	20-E-SW-4	2020
5	118-E-SW-5	2020
6	85-E-W-4	2020
7	83-E-SE-2	2020
8	30-E-SE-3	2022
9	113-H-W-4	2022
10	80-H-SW-4	2022
11	65-M-W-4	2023
12	43-E-SE-2	2023
13	68-E-SE-2	2023
14	89-E-W-4	2023
15	129-M-SE-2	2024
16	114-E-W-4	2024
17	48-M-SW-4	2026
18	134-E-N-7	2026
19	47-E-W-4	2027
20	50-H-SE-2	2027

FUTURE SCHOOL SITES

Factors that Impact Site Location

- Proximity to Student Population
- Availability of Real Estate
- Site Configuration
- Roadway Network and Capacity
- Utility Infrastructure and Capacity
- Environmental Considerations
- Existing and Adjacent Land Uses
- Availability of Joint Use Facilities
- Neighborhood Support
- Budgetary Constraints

Site Selection vs. Site Identification Process

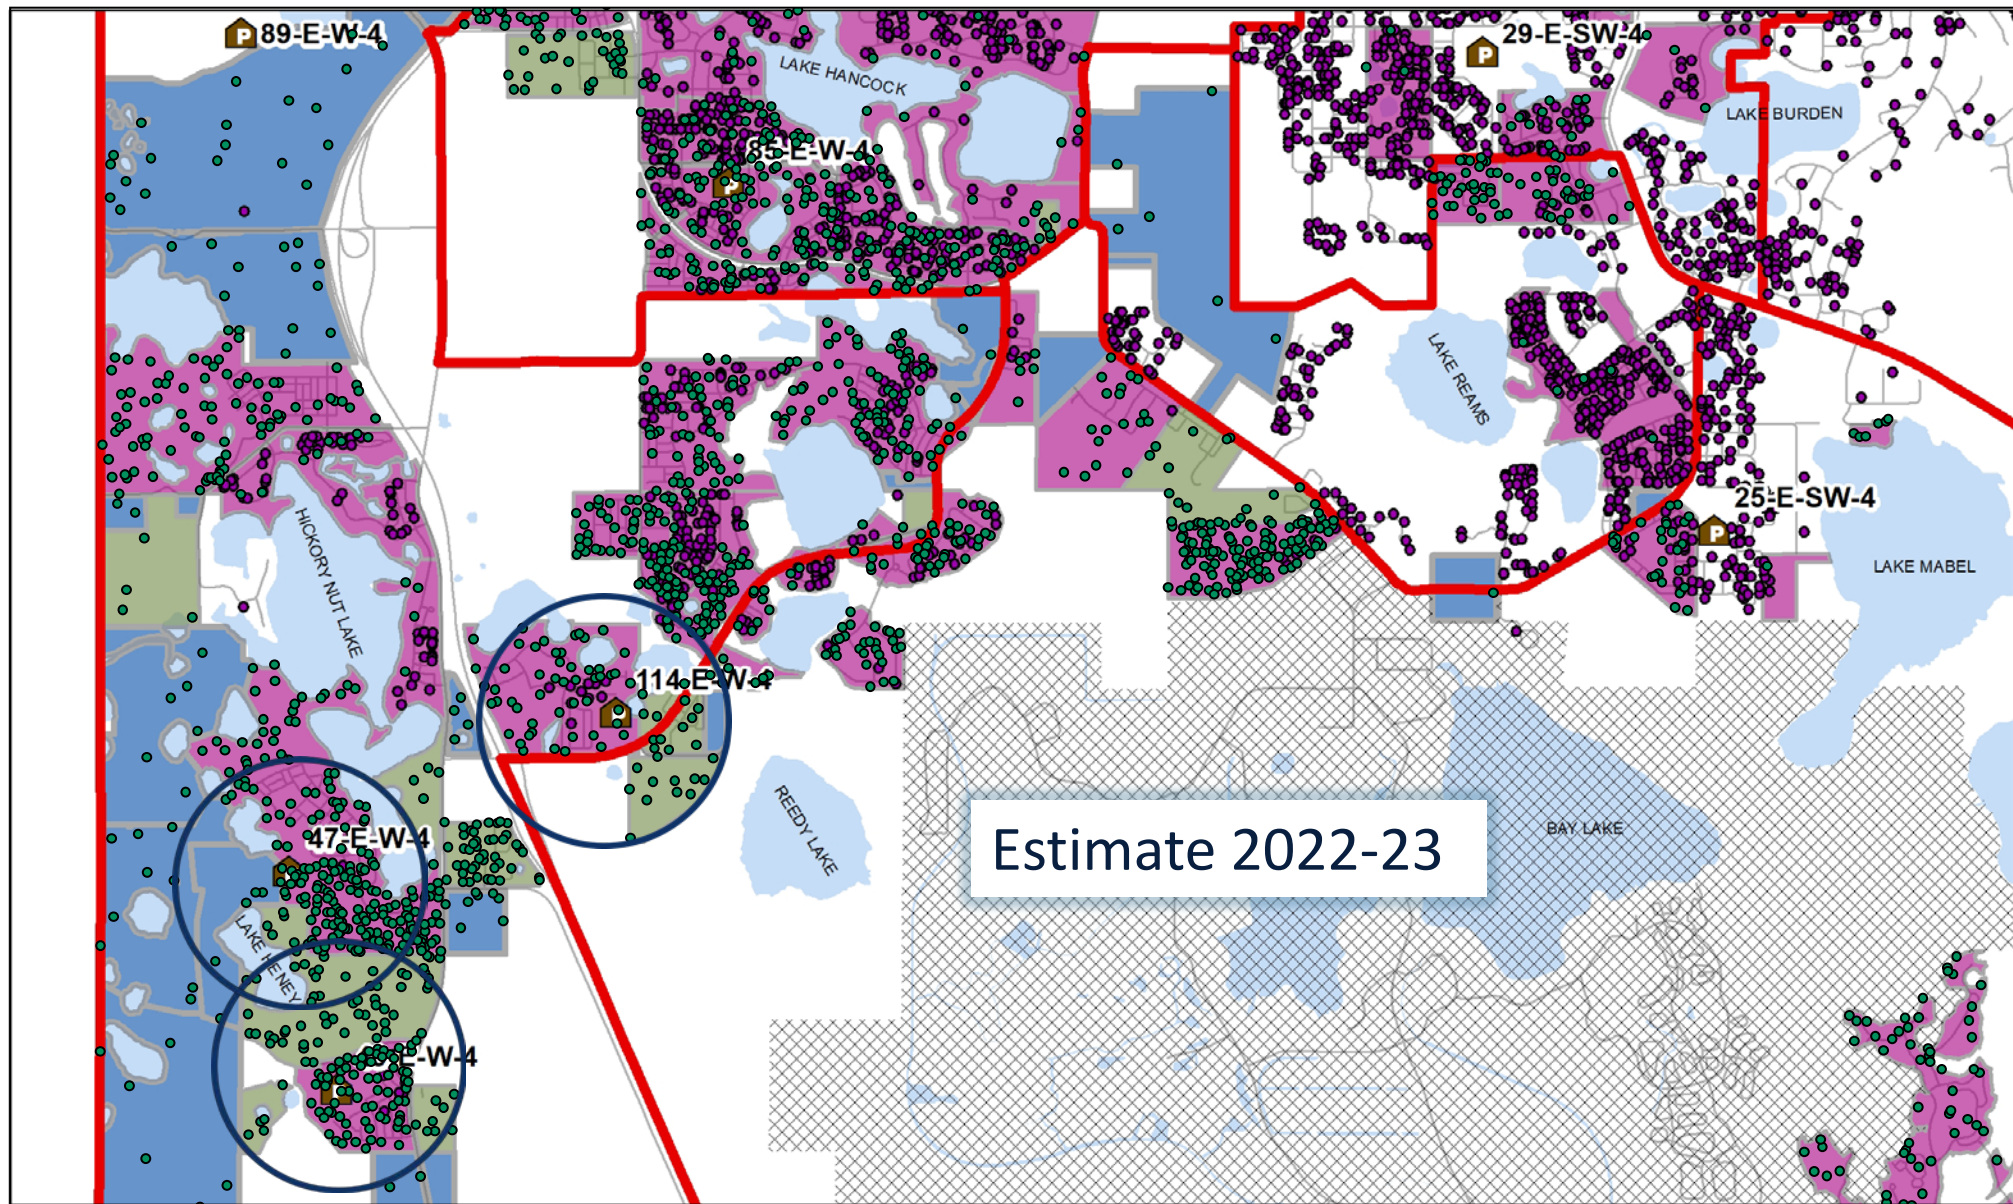

Site Selection in Horizon West

- Sites selected by Orange County and developers
- Predetermined locations in master planned community
 - 15 elementary school sites
 - 3 middle school sites
 - 1 high school sites (Seidel Rd Site)
- OCPS has limited input
- Timing based on developer's schedule
- Provide sites in exchange for impact fee credits

Site Selection

Site 49-E-W-4 vs 114-E-W-4 vs

Site 47-E-W-4

Site Selection vs. Site Identification Process

Site Identification outside Horizon West

- Identify site in target area
- Review available sites
- Acquire site through:
 - Market purchase
 - Conveyance for mitigation or impact fees
 - Land swap
 - Eminent domain

Mean Center

Summary

Identifies the geographic center (or the center of concentration) for a set of features.

[Learn more about how Mean Center works](#)

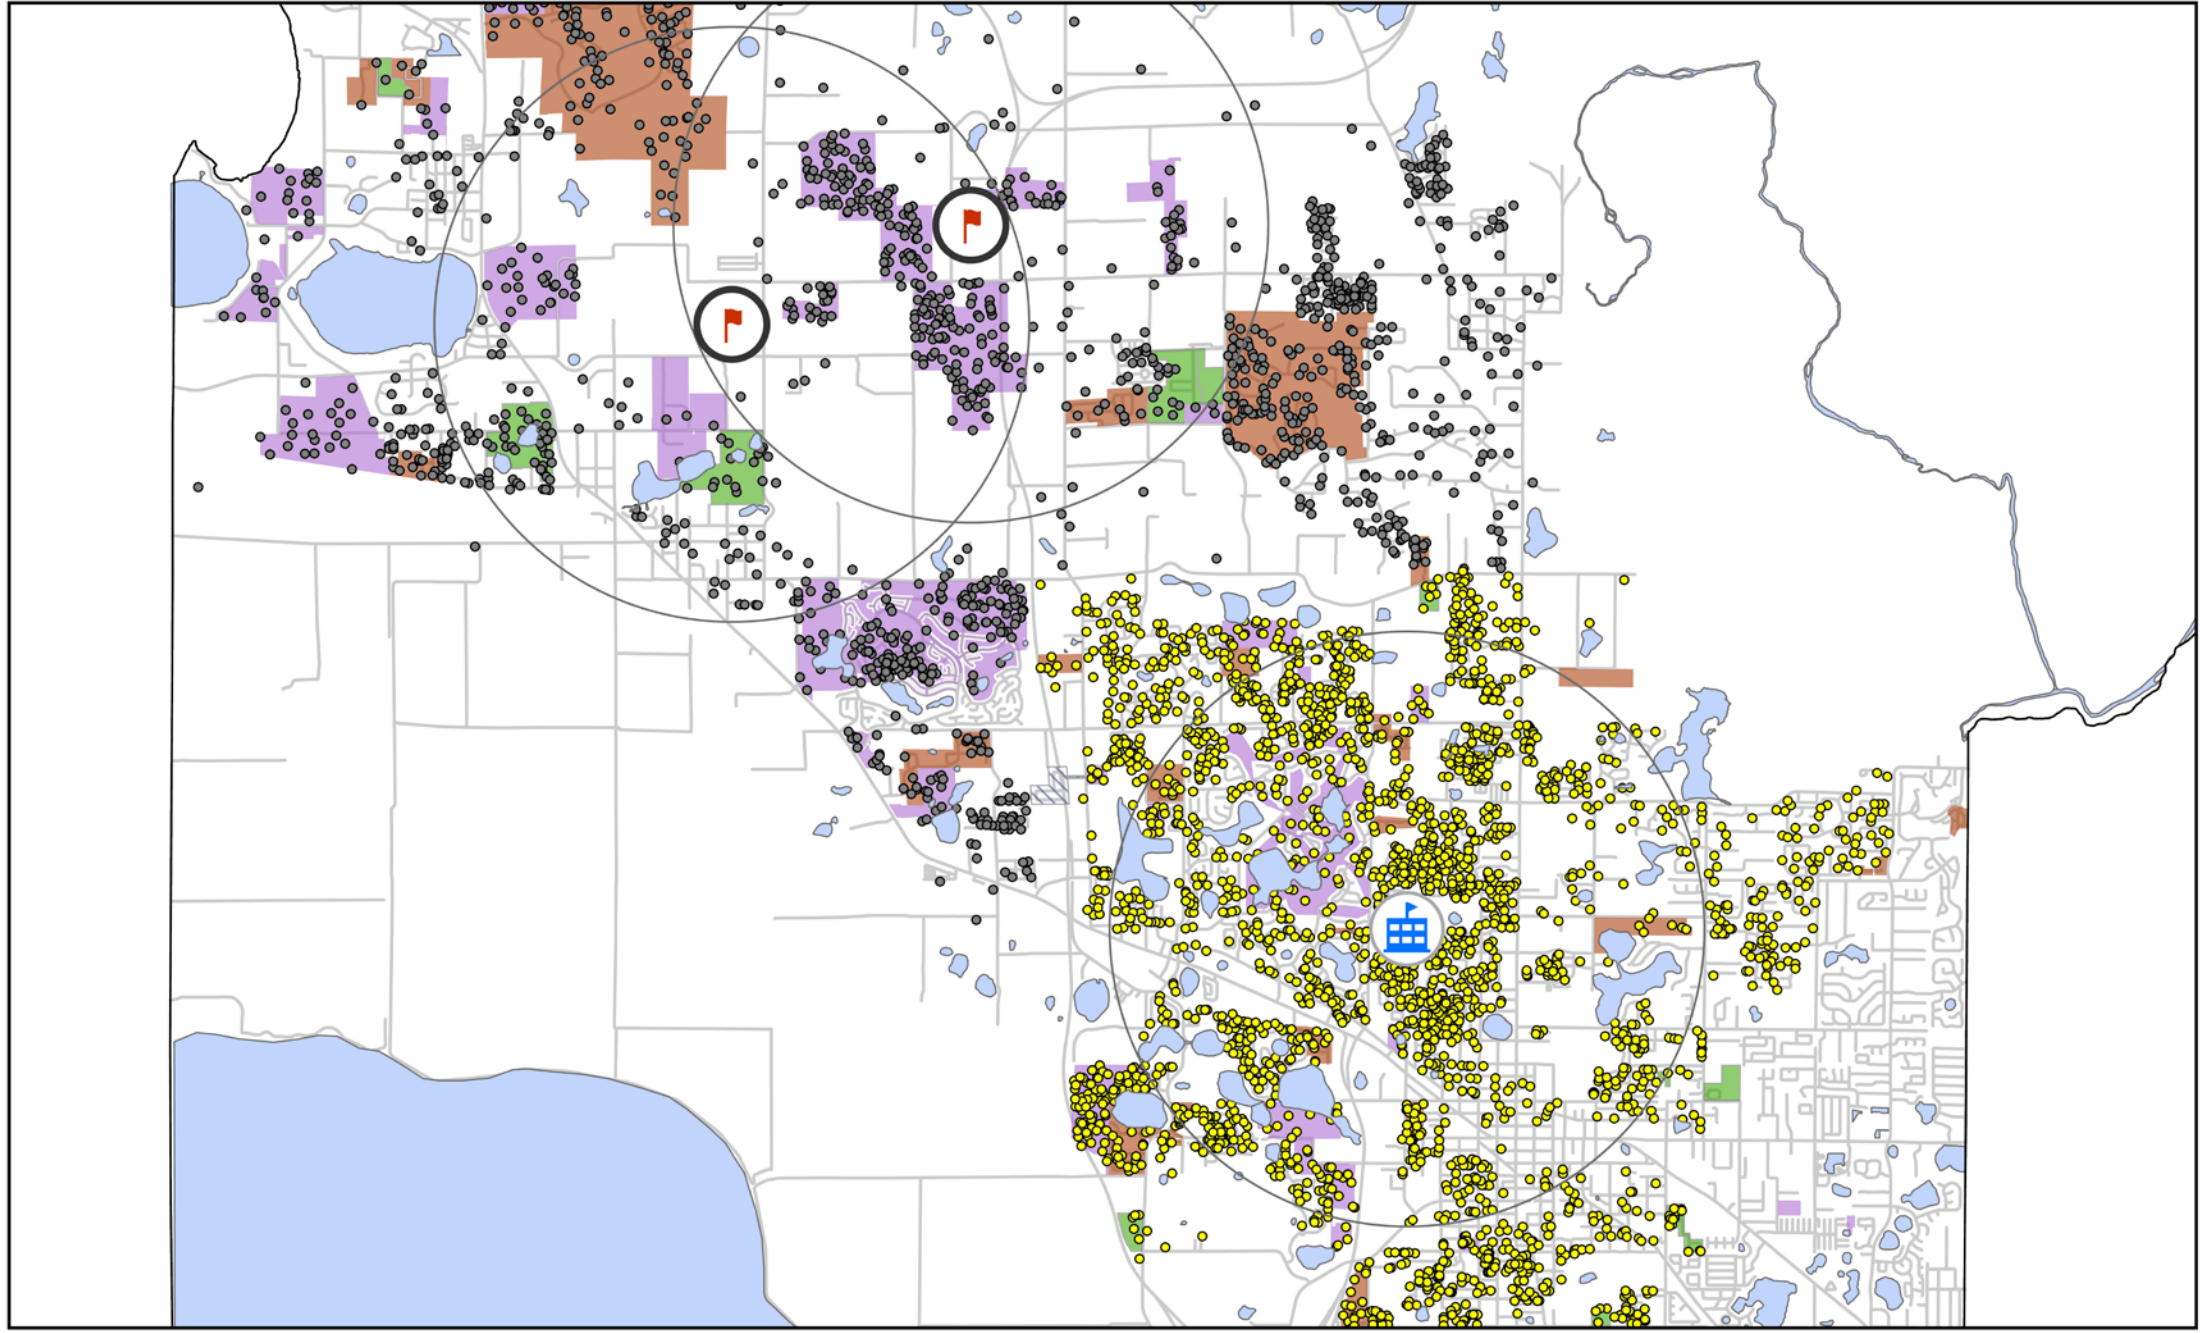

Illustration

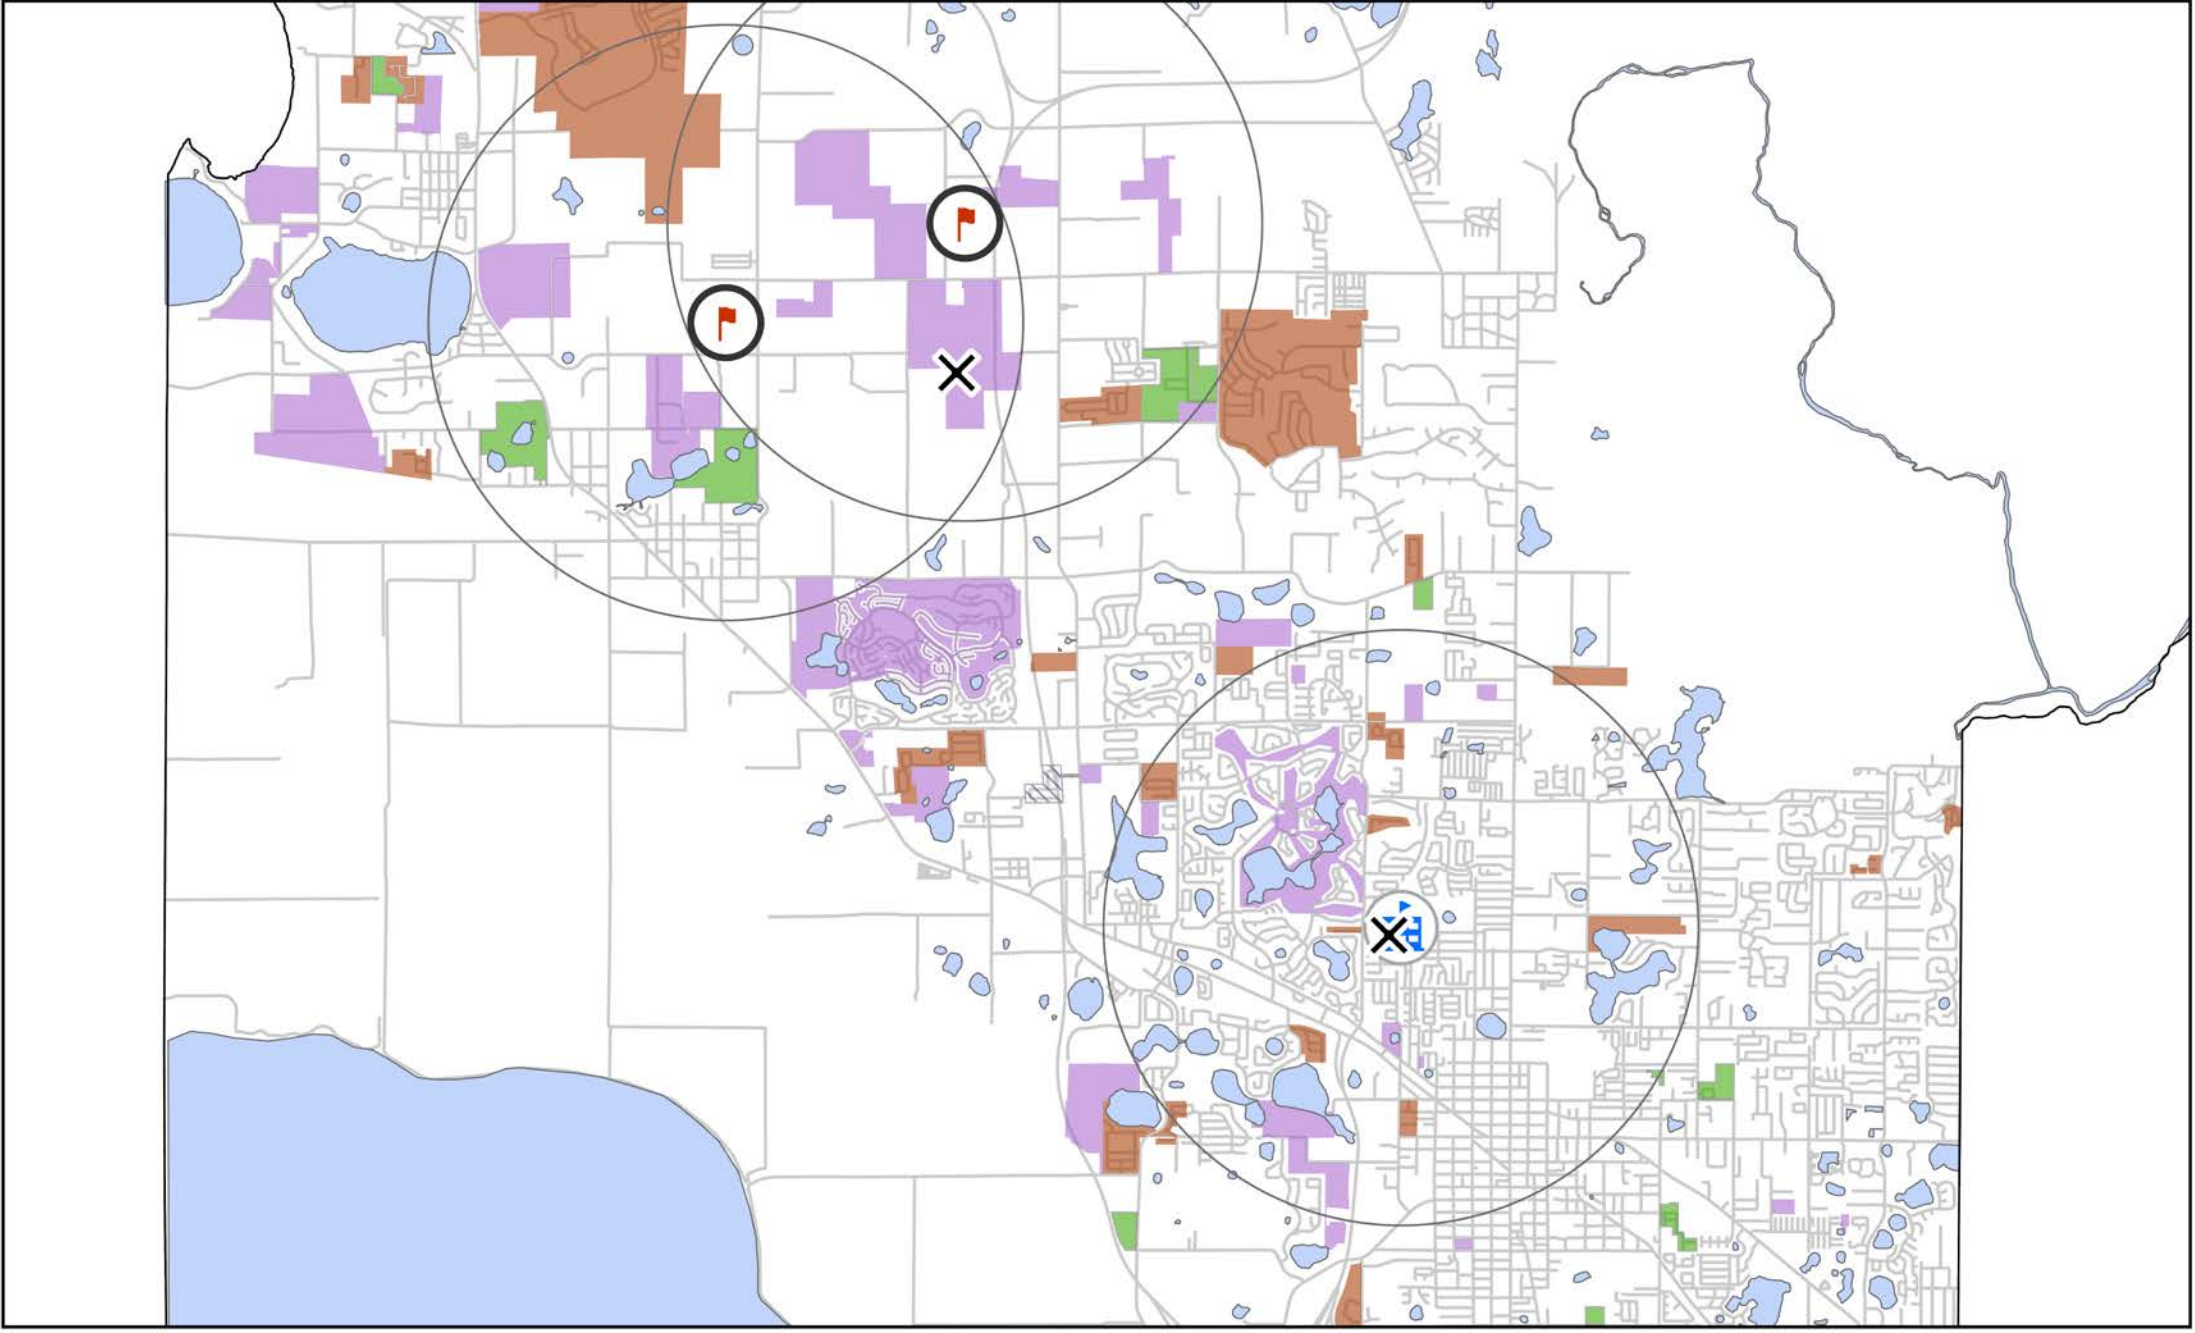

Usage

- The mean center is a point constructed from the average x, y and if available, z values for the input feature centroids.

GIS Tools – Mean Center (Spatial Statistics)

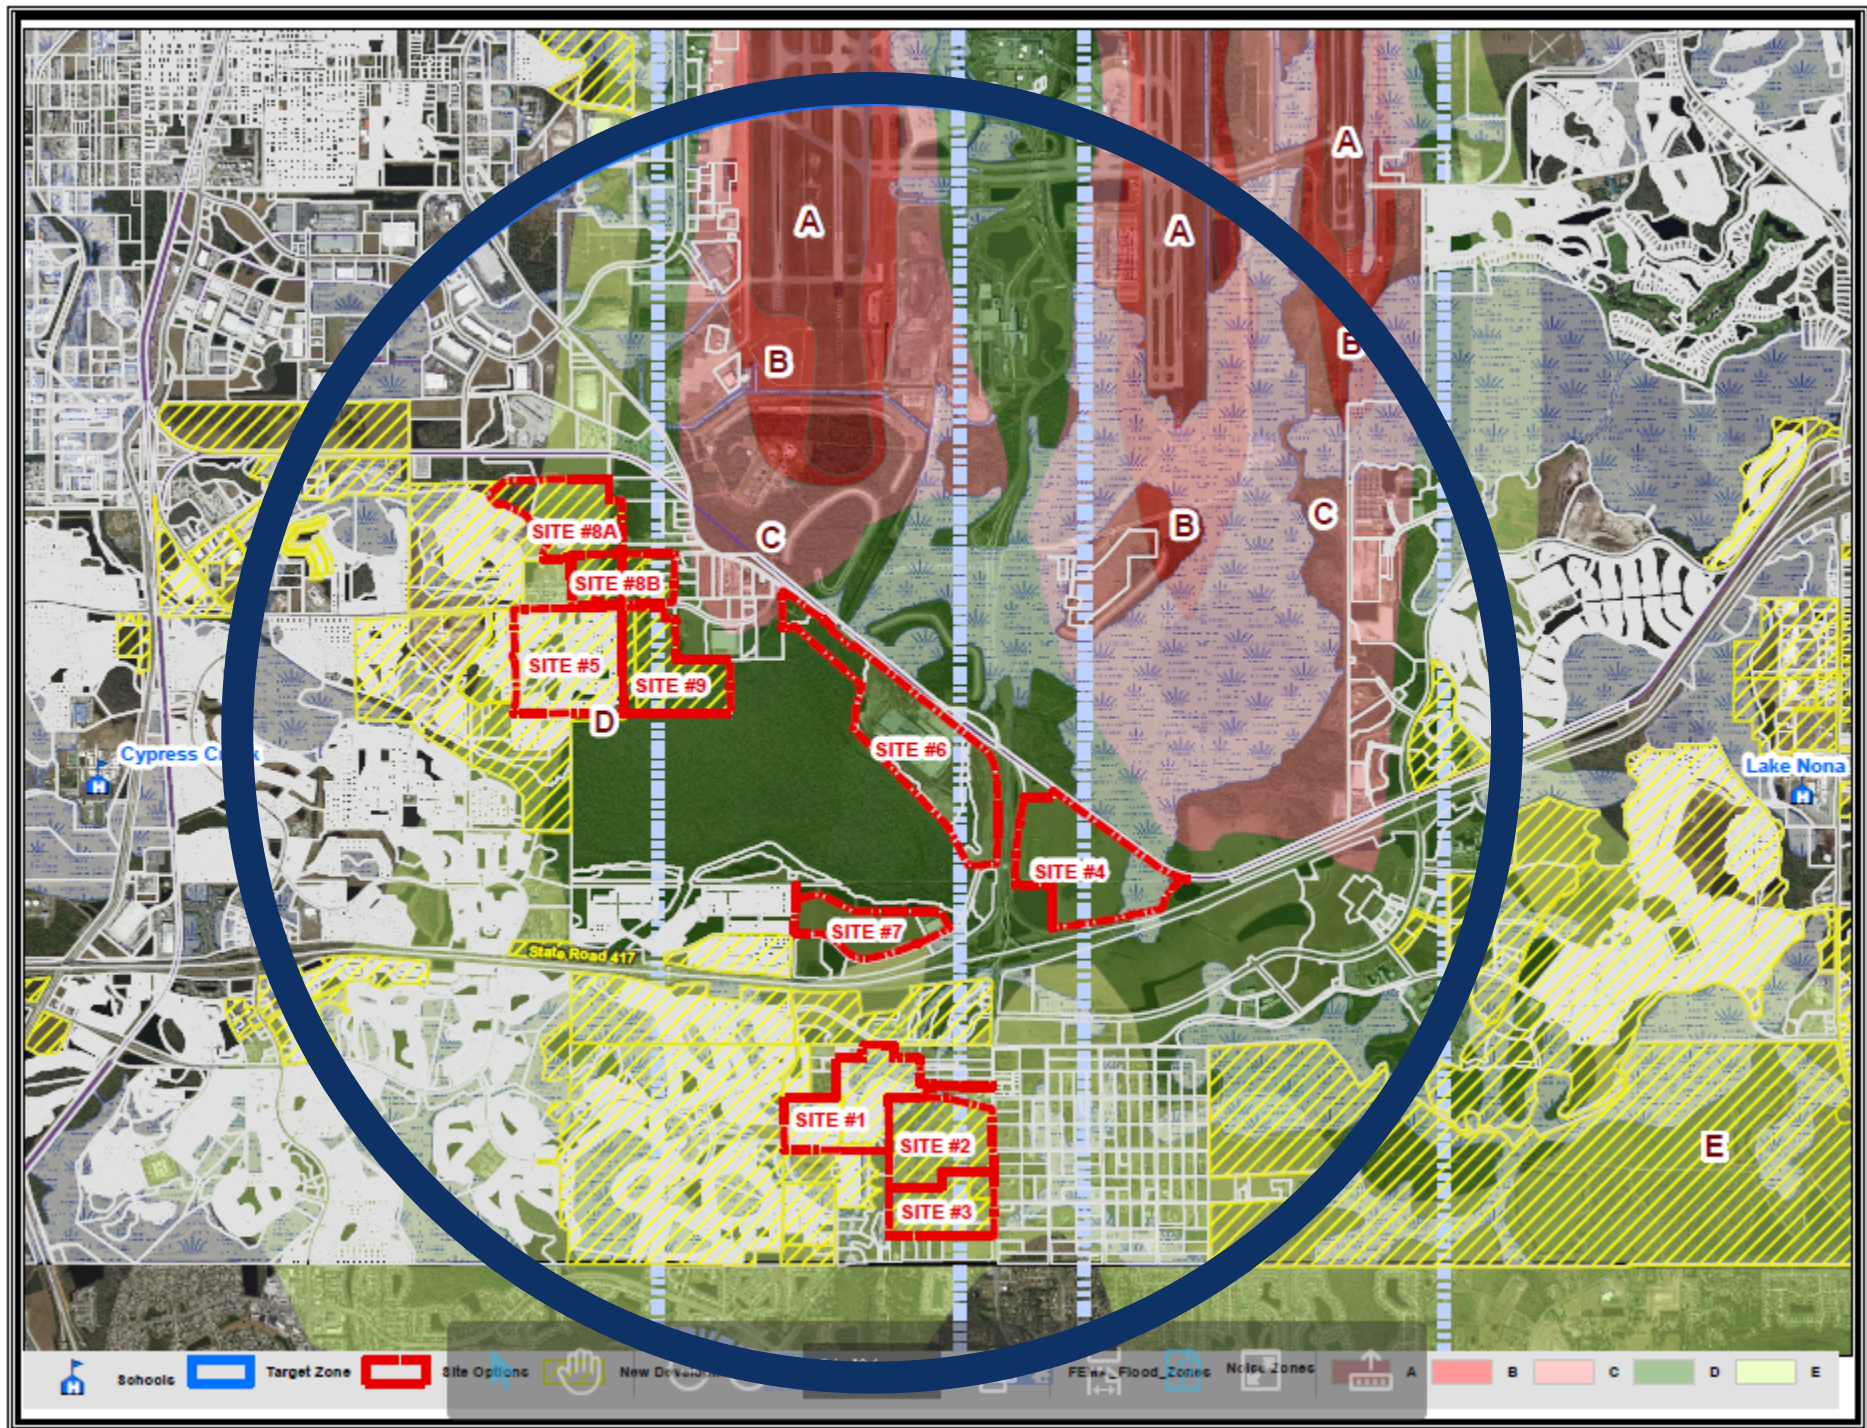

GIS Tools – Mean Center (Spatial Statistics)

Example of Alternative Site Identification

Site 119-H-SE-2

Due Diligence

- Before purchasing a site, OCPS conducts several tests, inspections and studies, including:
 - Boundary and Topography Survey
 - Geotechnical Studies
 - Environmental Assessment - Phase 1 and 2, if recommended
 - Endangered Species Survey
 - Transportation Analysis
 - Wetlands Delineation
- Last year, OCPS terminated two contracts as a result of findings during due diligence period

What Approvals Does OCPS Need to Build Schools?

It Takes a Village to Build a School

How OCPS Coordinates with Other Governmental Agencies

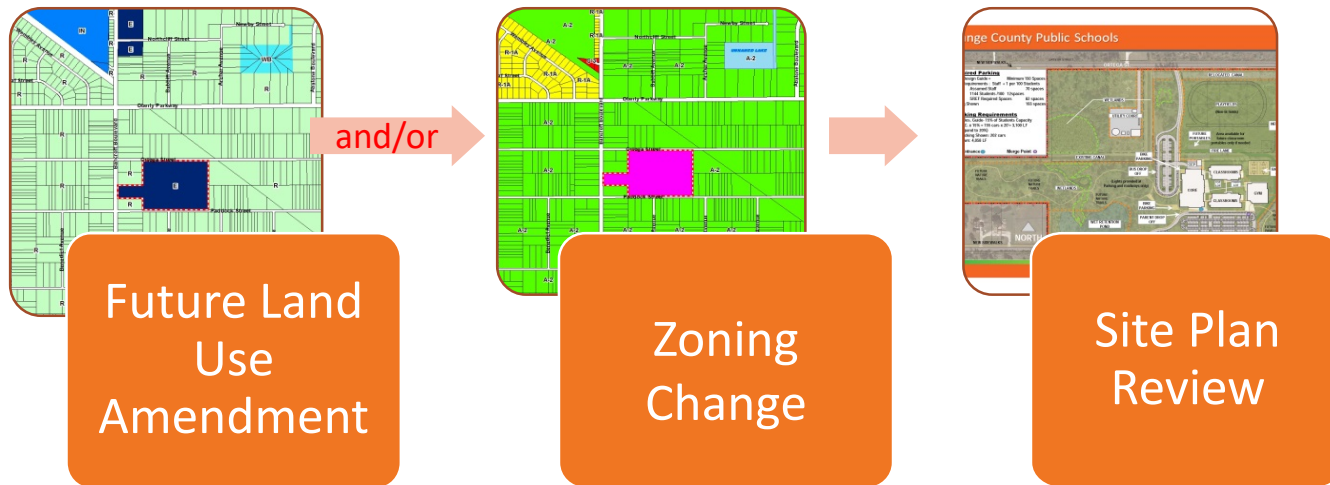

Local Governmental Agencies

- Orange County Government/ Municipalities Within Orange County
 - Approval of Entitlements- Future land use, zoning, site plan
 - Provisions of Local Roadways and Utility Infrastructure- Right-of-Way and Utility Permits
 - Provision of School Resource Officers
 - Implementation of Pedestrian Safety Measures- Provision of Crossing Guards, Installation of Sidewalks, Establishment of School Zones

State and Federal Governmental Agencies

- Florida Department of Education- Approval of Educational Plant Survey
- Water Management District- Approval of Wetland Impacts
- Florida Department of Environmental Protection- Approval of Environmental Impacts
- Florida Department of Transportation

Local Government: Development Review Process

- Prior to acquisition of real estate, REM is required to obtain the proper land use and zoning designations on the property that would allow for the future construction of a school or ancillary site
- Varies by jurisdictions but at least a three step process that takes 3-9 months:
 - Development Review Committee
 - Local Planning Agency/Planning & Zoning Commission
 - County Commission/City Council

Example of State and Federal Approvals

Site 37-M-SW-4

- **April 24, 2018** – Mobilization in non-sand skink zones
- **May 25, 2018**- Habitat Conservation Plan approved by U.S.F.W.S./Construction on the entire site mobilized

How Are New Schools Funded?

Types of Funding

Operating Budget, FY 2019

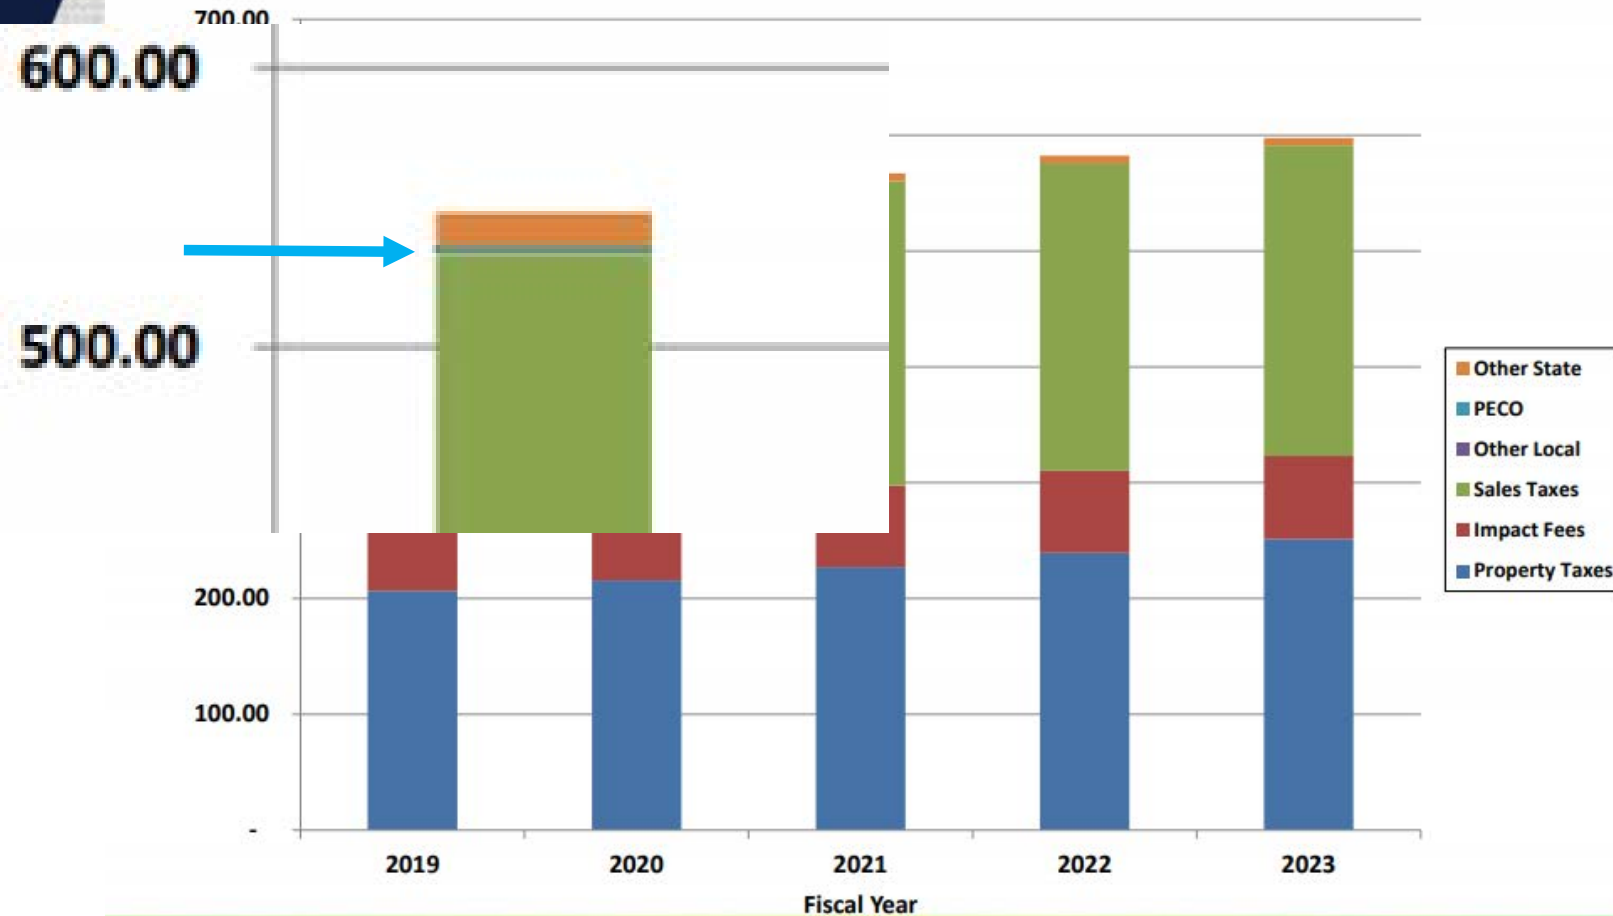

- 2/3 of \$3.2 billion budget
- Funding is equalized per student statewide
- Revenues primarily from state sales tax, local property tax, and additional millage
- Used for salaries, instructional needs, transportation, administration, maintenance, etc.

Capital Budget, FY2019

- 1/3 of \$3.2 billion budget
- Revenues primarily from sales tax, property tax, and impact fees
- Used for comprehensive renovations, new schools, capital renewal, debt service, and operations

Capital Projects Fund – Revenue Sources

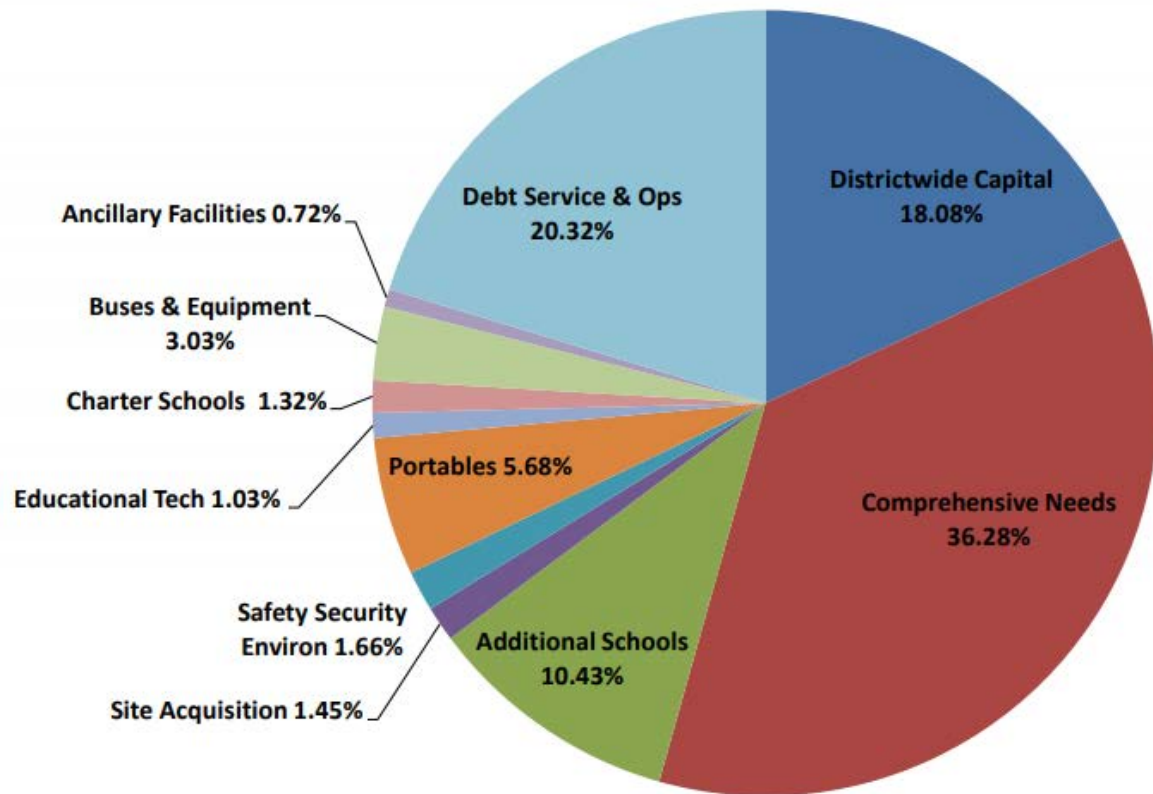

Budgeted Capital Revenues by Source

- Other State
- PECO
- ½ Penny Sales Tax
 - 2002 voter approved list of 136 schools
 - ~40% of the FY 2019 capital budgeted revenue
 - 2014 voters continued ½ penny for use on renovations, new schools, and technology upgrades (digital curriculum)
- Impact Fee
 - 10% of capital budgeted revenue
 - Pays for NEW schools
- Property Tax
 - Comprises 37% of capital budget
 - Pays for debt service, districtwide capital, buses, ancillary facilities

How Capital Funds are Spent

Capital Projects Use of Funds
(Excluding Reserves)

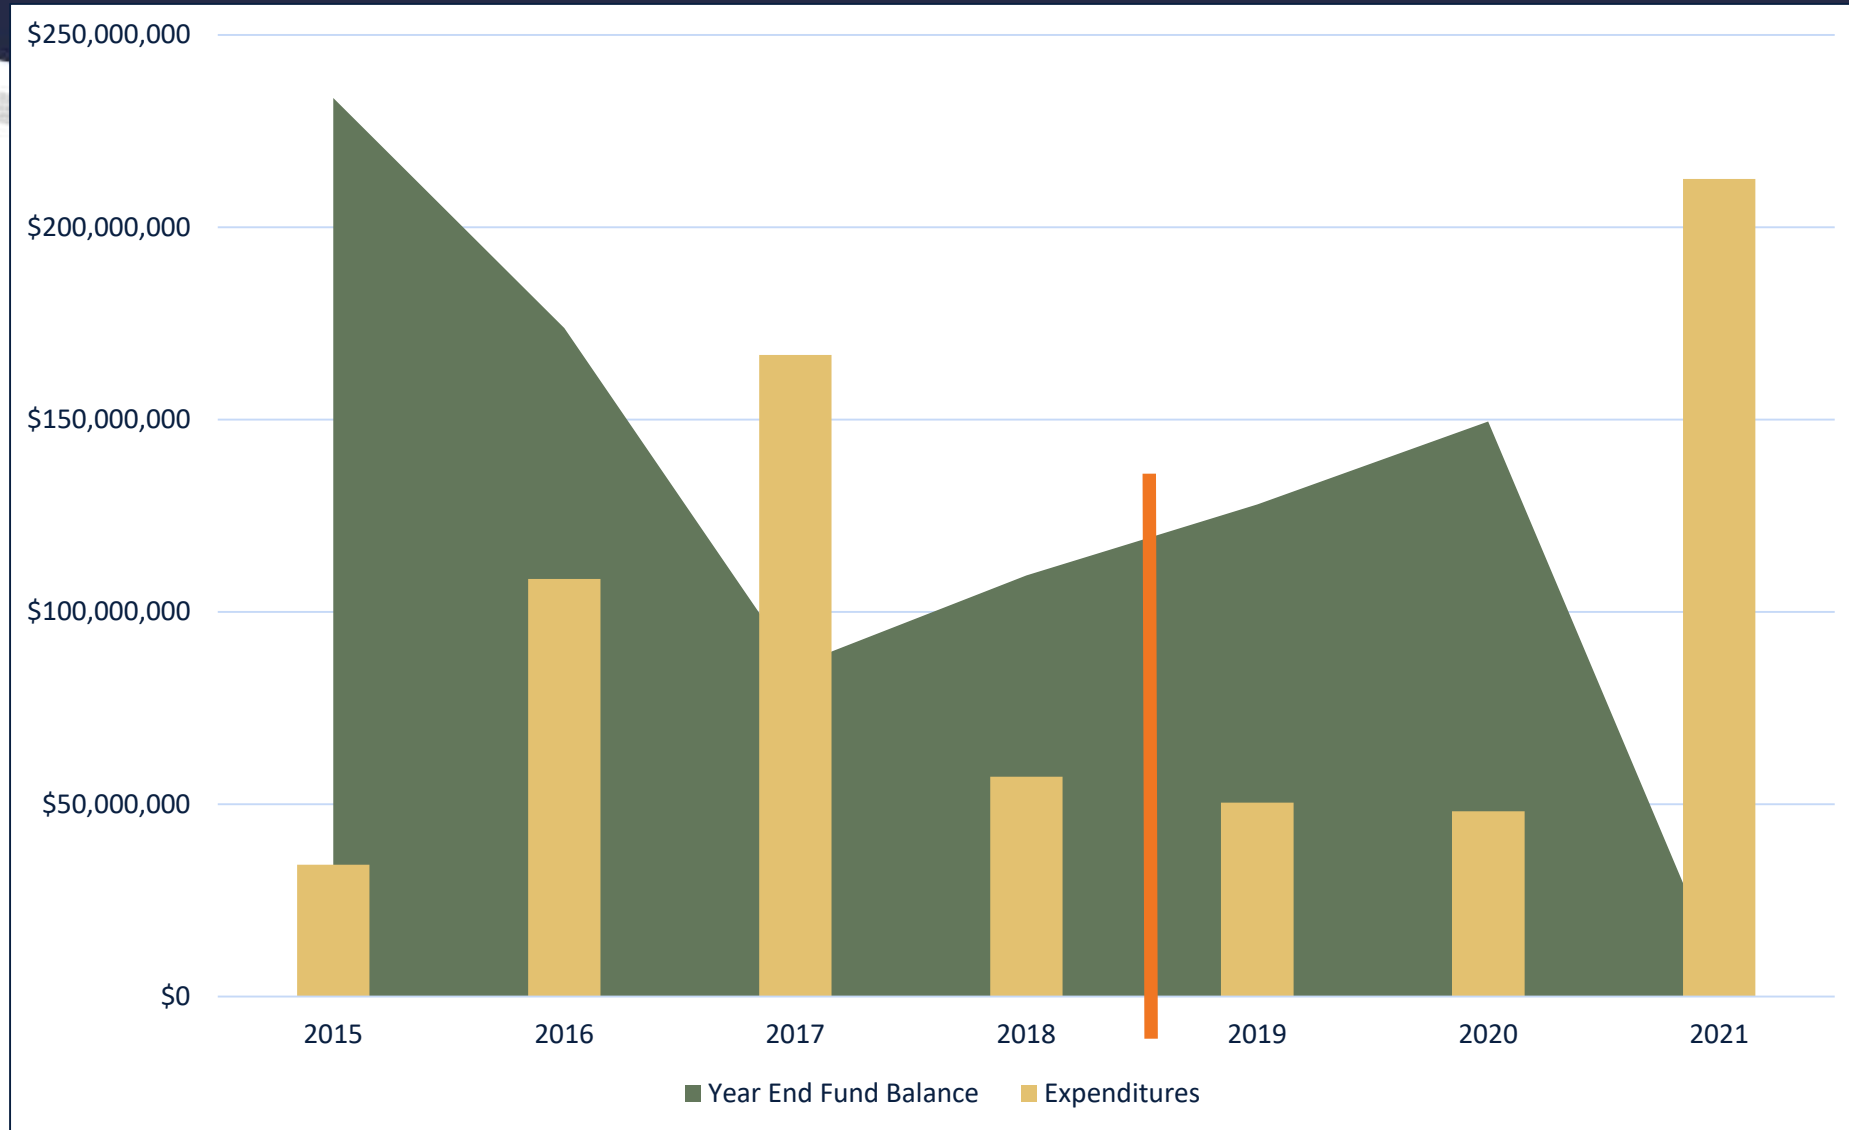

- 36% - Comprehensive Needs
 - Renovations or replacements of existing schools
 - Mostly funded by ½ penny sales tax
- 20% - Debt Service
 - Property Tax
- 18% - Districtwide Capital/Capital Renewal
 - Property Tax & Sales Tax
- 10% - Additional NEW Schools
 - Mostly funded by impact fees

Capital Funding Sources

- School Impact Fee

- Can be spent on new capacity only (new schools)
- New revenue comprise 13% of the capital budgeted revenue
- New schools comprise 10% of capital budget needs
- Paid to local government by developers upon issuance of a building permit
- OCPS relies on projected revenue to allocate these funds
- Currently \$8,784.00/single family, \$6,930/townhome; \$5,919.00/multi-family unit
- Based on the cost per student station and calculated every two to four years

Impact Fee Revenue and Expenditures, 2015-2018 (Actual), 2019-2021 (Projected)

Capacity Enhancement and Concurrency

Is school capacity available to serve new development?

- OCPS provides local governments with information on school capacity and enrollment (utilization)
- Under the Interlocal Agreement, local government should not approve a FLUM or Rezoning if capacity is not available
- Mitigation agreements (CEAs, CMAs) are tools for developers to help OCPS provide capacity proportionate to their impact
- Developers pay impact fees + capital contribution to achieve the full cost of a student station. These funds help OCPS build new capacity or provide temporary capacity
- OCPS can not receive these funds until the developer is permitted to build

Residential Land Use Approval Process

Capital Funding Sources

- Developer Mitigation Payments

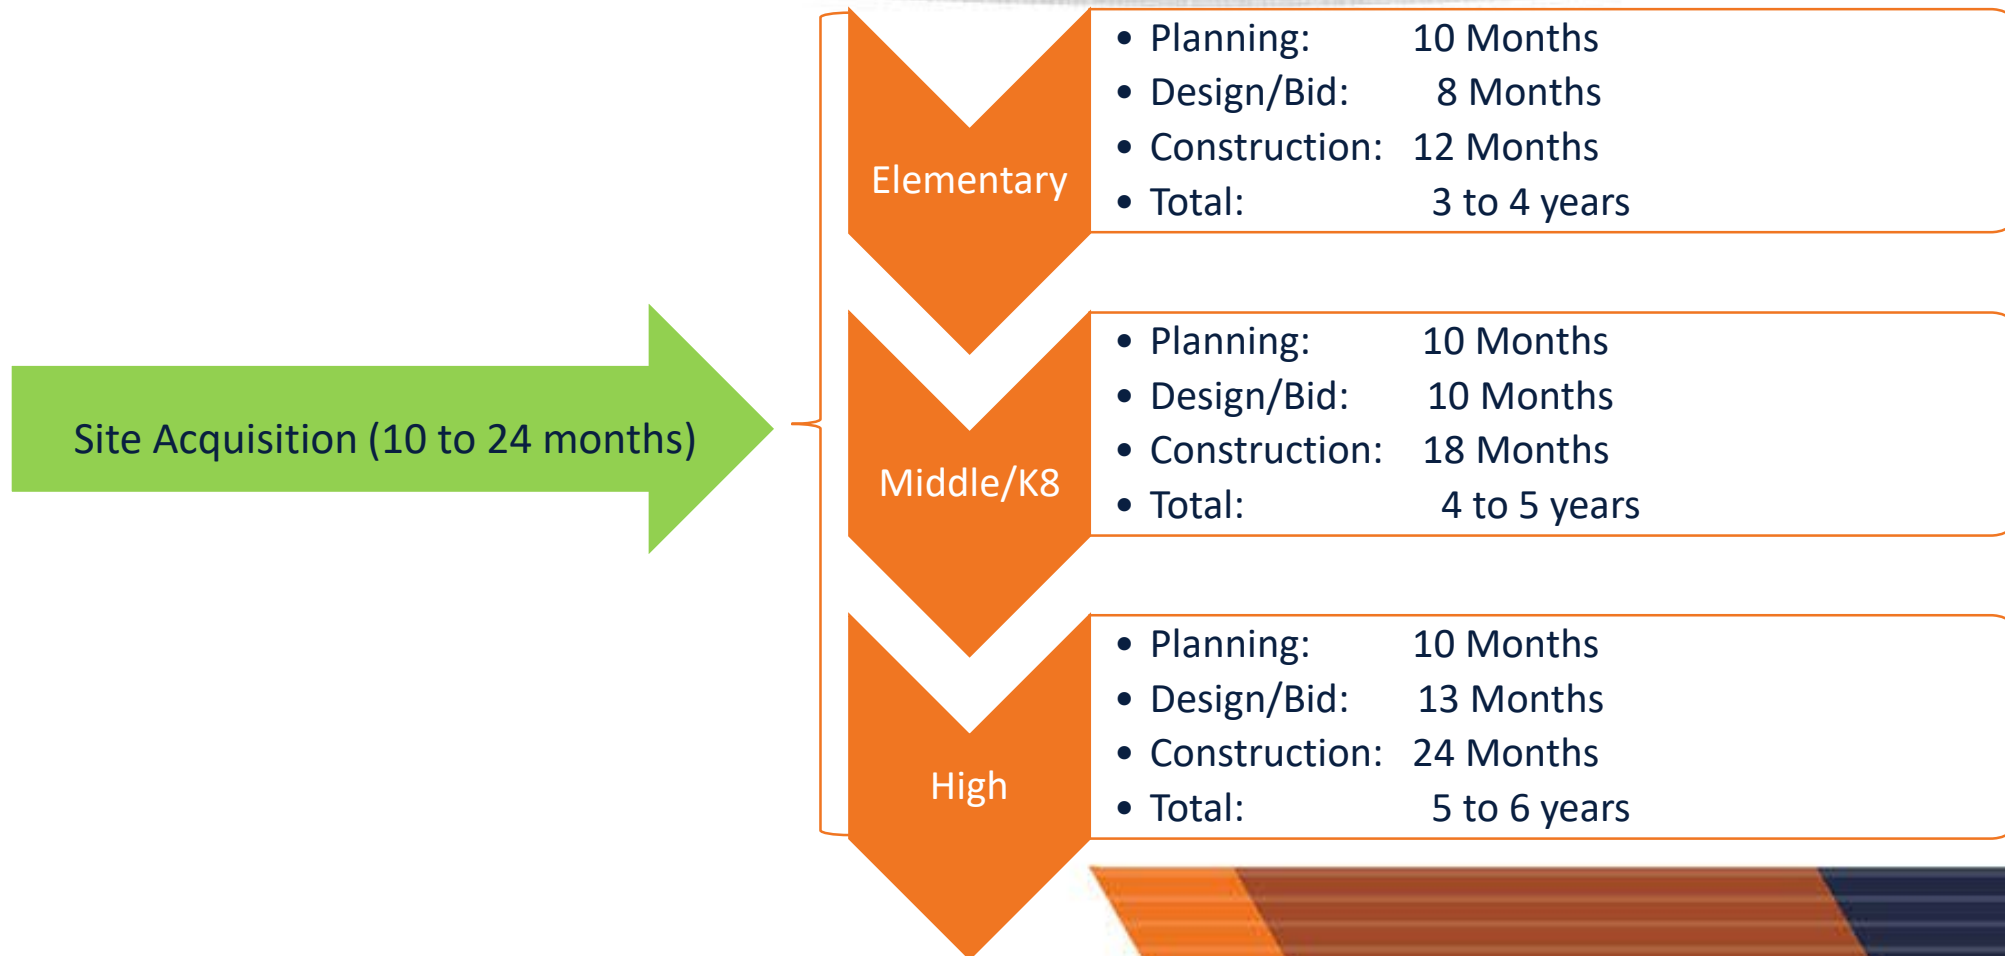

- Also known as “Capital Contribution” or “Proportionate Share”
- Can be spent on new capacity only
- Paid to OCPS by developers prior to plat approval through CEA/CMA process
- Based on the proportionate share cost per student station and calculated every two to four years
- Mitigation spent directly on an affected school but comprises only a fraction of the capital budget
 - Collected \$1,853,805 in mitigation payments in 2016-17
 - \$32,585,701 pledged via mitigation payments through CEAs/CMAs in 2016-17
- Charged only to developers building in over-crowded school zones

What is the Process for Building a New School?

Prototype Size

- School sizes based on the Board approved Educational Framework established in 2003.
- Capacity based on Class Size Amendment and Federal/State law for exceptional education students.
- Consistency in prototype sizes generate operational efficiencies.
- Elementary
 - 830 student capacity
 - 101,828 sf
- Middle
 - 1,215 student capacity
 - 181,896 sf
- K8
 - Similar to middle school in size and capacity
- High
 - 2,776 student capacity
 - 376,016 sf

Total Project Duration

Construction Cost

Local Market Conditions

- High volume of work in Central Florida
- Shortage of local labor
- High material prices
- High sub-contractor profit margins

Site work and Infrastructure Improvements

- Site development and access roadways
- Availability of off-site utilities
- Ecological considerations

New Florida Building and Energy Codes

Project Cost for Similar Sized Elementary Schools

2012 —7%→ 2015 —26%→ 2018
\$16.1M \$17.2M \$21.6M

Community Meetings for Construction of School

Purpose:

- To inform and engage local communities
- To gather input during the design phase
- To provide construction progress updates
- To celebrate the school when complete

Benefits of Effective Community Meetings:

- Gain Community buy-in
- Communicate project scope
- Resolve issues and concerns
- Demonstrate collaborative process

Community Meeting Schedule
