Surgical Technology

Metaphoria – Visioning Exercise Revisited

In the future, when Orange Technical College completes its mission of renovating the Orlando Campus and all goals have been met, our facility will be like this photo because...

Metaphoria – Visioning Exercise Responses

...everyone will be coming together to form a complete picture and then dispersing to the broader community.

...the building will be completed in a timely and seamless fashion, with no time to waste.

...the building should create a more therapeutic environment.

...the building should not look behind but rather think ahead.

...students will strive to reach their goals.

...the building needs a fresh start and will be renewed.

...the students will embark on a journey.
