A tot lot playground shade structure was installed at **Andover Elementary** in January 2020. Replacement of air conditioning chillers is scheduled for 2021.

A tot lot playground shade structure was installed at **Avalon Elementary** in January 2020.

A Curb Appeal project was completed at **Avalon Middle** in October 2019, and a new intercom system was installed in 2020. Seven campus buildings are set to be re-roofed in 2021.

Colonial High is home to two phases of capital renewal projects. The first, which replaced a 6-lane track with a district standard 8-lane track, was completed in February 2019. The second phase, which was completed in December 2019, involved repairing stucco, exterior painting, chiller replacement and improvements to the Auto Shop, Agriculture Lab and ESE Facility. Construction of new facilities for field events were completed in 2019. The school's Performing Arts Center has been replaced and opened for the 2019-20 school year. Football stadium lighting will be replaced in 2021.

The **Colonial Ninth Grade Center** was refreshed in the first half of 2020 with a project that included site, building envelope, life safety system and heating, ventilation and air conditioning improvements. The project also included new roofs for most buildings, repaving of the parking lot and driveway areas, new chillers and pumps, new electric hot water heaters and new fire alarm and intercom systems. Work on the fire alarm system is underway and will be complete in 2020.

A replacement of **Deerwood Elementary**, the 'little red schoolhouse,' opened for the 2019-20 school year.

Discovery Middle is getting campus-wide improvements including sound systems for the gymnasium and cafeteria, water coolers, replacement of select door hardware, an LED lighting upgrade and upgrades to the heating, ventilation, and air conditioning system. Projected completion is November 2020. A Curb Appeal project was completed in January 2020, and the air conditioning was replaced in 12 portables in 2020.

A new tot lot shade structure was completed in August 2020 at **Engelwood Elementary**.

New security fencing and a tot lot shade structure were completed at **Forsyth Woods Elementary** in July 2020.

At **Lake Nona High**, renewal of the air conditioning chillers is scheduled for 2021. Renewal of the cooling towers is scheduled for 2021. New field lighting is set to be complete by December 2020.

At **Liberty Middle**, the cafeteria serving area is set for improvements in 2021. Interior painting campus-wide is scheduled for 2021.

A tot lot playground shade structure was installed in January 2020 at **Little River Elementary**.

A project to re-roof seven buildings on the **Meadowbrook Middle** campus is set to be complete by October 2021.

A Curb Appeal project was completed at **Moss Park Elementary** in February 2020. A tot lot playground shade structure was installed in January 2020. Replacement of air conditioning chillers is scheduled for 2021.

Upgrades to the heating, ventilation and air conditioning system serving Building 200 at **Northlake Park Community School** were completed in January 2020. A tot lot playground shade structure was installed in August 2020.

A campus-wide capital renewal project at **Odyssey Middle** was completed in November 2019. The project included improvements to the heating, ventilation and air conditioning systems, new gutters and downspouts, new exterior building and courtyard lighting, new gymnasium lighting, a new network fiber-optic backbone for the Internet, the replacement of the fire alarm and intercom systems and replacement and expansion of the security camera system.

A replacement/renovation of **Pinar Elementary** was completed and opened for the 2020-21 school year. The project includes the renovation of two classroom buildings and the construction of a new main building that houses classrooms, administration, cafeteria, and media center. The school also has the latest classroom technology, updated play areas and new bus and car loops.

A new elementary school known as **Site 43-E-SE-2** is under construction in the Lake Nona North area. The school is set to open in August 2021. This project includes construction of a new prototype elementary school building with classrooms, administration, art, music, kitchen, cafeteria/multi-purpose room, media center and related site work. It is designed for 837 students.

Playground shade structures were installed at **Stone Lakes Elementary** in July 2020.

A comprehensive renovation of **Sunrise Elementary** that includes classroom technology upgrades, new finishes, heating, ventilation and air conditioning upgrades and new plumbing fixtures was completed for the 2019-20 school year. A new youth lot playground shade was installed in 2020.

At **Three Points Elementary**, a tot lot shade structure was installed in June 2020. The school is also scheduled for a comprehensive renovation that is set to begin design in June of 2021 and be completed in November 2023.

At **Timber Creek High**, new home bleachers at the football stadium were completed in 2019, security fence gates and an athletic building sidewalk were completed in 2020, and a new rubberized track with field events and additional fencing was completed during the summer of 2020. A project to replace the intercom, install new security cameras, improve the intrusion detection and fire alarm systems, add sound reinforcement to the cafeteria and improve the heating, ventilation and air conditioning system was completed in April 2020.

At **Timber Lakes Elementary**, a new tot lot playground shade structure was completed in July 2020. A new playground was finished in 2019.

At **Ventura Elementary**, a tot lot shade structure was installed in July 2020.

At **Vista Lakes Elementary**, a tot lot shade structure was installed in June 2020.
