## School Construction and Maintenance

### *Projects 2020-21*

The chillers at **Catalina Elementary** were replaced in February 2020.

At **Eagle's Nest Elementary**, a tot lot playground shade structure was installed in August 2020.

At **Eccleston Elementary**, a tot lot playground shade structure was installed in July 2020.

At **Hiawassee Elementary**, a tot lot playground shade structure was installed in July 2020.

At **Ivey Lane Elementary**, a tot lot playground shade structure was installed in July 2020.

A campus-wide capital renewal project is underway at **Jones High**. The project will make improvements to the heating, ventilation and air conditioning system, improve indoor air quality, as well as repair stucco, paint and make other improvements to the school exterior. The scope also includes interior painting, new auditorium and gymnasium sound systems and new intercom and intrusion detection systems. The project should be complete by December 2020. A separate phase to reroof buildings campus-wide is set to conclude by November 2021.

The rubberized track and field events, scoreboards and announcer booth sound system have been completed. The PA system for the baseball/softball fields was completed in 2019. The addition of the school name to the front of the school has been completed, as has the greenhouse. The stage curtain replacement was finished in 2019. The cafeteria serving area is in design for improvements set to be completed in June 2021.

Construction is underway on the campus that will consolidate Gateway and Cherokee schools into a **Learning Center** adjacent to the Magnolia School site. The custom-designed new school will open in 2021 and will include on-site vocational options, has core spaces, including classrooms, administrative area, lab spaces, a cafetorium, media center and covered play space and playground.

**Magnolia School** opened in August 2020 as a custom-designed replacement facility for a specialized population of students with disabilities. The school also includes on-site vocational options for older students.

At **Memorial Middle**, renewal of the cooling towers is scheduled for 2021.

At **Millennia Elementary**, a new youth playground was completed in September 2019. A tot lot playground shade structure was installed in 2020.

At **Millennia Gardens Elementary**, a tot lot playground shade structure was installed in July 2020.

At **Mollie Ray Elementary**, a tot lot playground shade structure was installed in July 2020.

At **Oak Hill Elementary**, a tot lot playground shade structure was installed in December 2019.

At **Oak Ridge High**, new field lighting will be completed in December 2020. The new rubberized track and field events areas will be completed in 2021.

At **OCPS Academic Center for Excellence**, an LED marquee will be installed in 2020. A tot lot playground shade structure was installed in July 2020.

At **Orange Center Elementary**, a tot lot playground shade structure was installed in June 2020.

At **Orange Technical College – Mid-Florida Campus**, campus building exterior signage was completed in 2019 and the paint booth and the automatic door opener for building 1600 have been completed. The school is also in the planning phase for a capital project currently set to be completed in 2025.

**Orange Technical College – Orlando Campus** is in the design phase for a renovation/replacement currently set to be completed in 2023.

At **Orlo Vista Elementary**, a tot lot playground shade structure was installed in July 2020.

A Curb Appeal project was completed at **Pineloch Elementary** in February 2020. A tot lot playground shade structure was installed in June 2020.

At **Rock Lake Elementary**, a tot lot playground shade structure was installed in December 2019.

At the **Ronald Blocker Educational Leadership Center**, renewal of the cooling towers is scheduled for 2021.

**Sadler Elementary** is set to be reroofed by January 2022. A tot lot playground shade structure was installed in August 2020. Interior painting campus-wide and replacement of air conditioning chillers is scheduled for 2021.

At **Shingle Creek Elementary**, a static marquee sign and a tot lot playground shade structure were installed in December 2019.

**Site 118-E-SW-5** is a relief elementary school in planning, scheduled for a 2023 opening. The project will include the construction of a new campus that includes classrooms, administration, cafeteria, and media center. The school will also have the latest classroom technology, tot lot and youth lot play areas and separate bus and car loops.

At **Tangelo Park Elementary**, a Rosen tot lot playground was completed in December 2019.

A Curb Appeal project was completed at the **Washington Shores Primary Learning Center** in February 2020. A tot lot playground shade structure was installed in July 2020.

At **West Oaks Elementary**, a tot lot playground shade structure was installed in July 2020.

At **Westridge Middle**, an LED marquee has been installed.
